

Single Room Exam 2022

In case the Team chooses to take part in the proctored rounds in one venue, the following configuration of the equipment is required:

1. Contestant's individual workplace
 - 1.1. Contestant's individual workplace should be equipped with a computer/laptop with a web camera, stable Internet connection and pre-installed Google Chrome browser (the latest version).
 - 1.2. Each contestant must have a fully charged smartphone with a pre-installed QR-code reader that would enable them to switch on the second camera. All the rules described in the Technical Instruction apply.
2. Examination room
 - 2.1. The examination room should be spacious enough to accommodate all contestants and a team leader with a minimum distance of 2 meters between each pair of people.
 - 2.2. The Zoom camera should be placed in the corner of the room and cover all the contestants, the team leader and the entrance. In case one camera cannot provide the required image, a second camera is applied and placed in a way that leaves the rest of the contestants in the frame.
 - 2.3. The link to the Zoom room is sent to the team leader by IEO Steering Committee no later than 26 July 21:00 UTC.
3. Camera's frame
 - 3.1. Contestant's web camera

- 3.1.1. The face is well-lit and visible.
- 3.1.2. The sight is directed to the screen.

3.2. Contestant's second camera

3.2.1. The hands and the keyboard of the contestant are clearly seen.

3.2.2. The face of the contestant fits into the frame.

3.3. Zoom camera

3.3.1. The camera covers all the seats and the entrance.
